# HA179L00 Series

3-terminal Negative Fixed Voltage Regulators

# HITACHI

ADE-204-054 (Z)  
Rev. 0  
Dec. 2000

---

## Description

The HA179L00 series are three-terminal fixed output voltage regulators. These are small outline packages which are useful ICs. For application example, as Zener diodes, easy stabilized power sources.

## Features

- Some kinds output voltage series
- Superior ripple rejection ratio for audio frequency
- Large maximum power dissipation: 800 mW
- Over current and over temperature protection

# HA179L00 Series

## Ordering Information

| Application    | OutputVoltage | TypeName  | Package |
|----------------|---------------|-----------|---------|
| Industrial use | -5            | HA179L05P | TO-92M  |
|                | -6            | HA179L06P |         |
|                | -8            | HA179L08P |         |
|                | -9            | HA179L09P |         |
|                | -10           | HA179L10P |         |
|                | -12           | HA179L12P |         |
|                | -15           | HA179L15P |         |
| Commercial use | -5            | HA179L05  | TO-92M  |
|                | -6            | HA179L06  |         |
|                | -8            | HA179L08  |         |
|                | -9            | HA179L09  |         |
|                | -10           | HA179L10  |         |
|                | -12           | HA179L12  |         |
|                | -15           | HA179L15  |         |
| Commercial use | -5            | HA179L05U | UPAK    |
|                | -6            | HA179L06U |         |
|                | -8            | HA179L08U |         |
|                | -9            | HA179L09U |         |
|                | -10           | HA179L10U |         |
|                | -12           | HA179L12U |         |
|                | -15           | HA179L15U |         |

## Output Voltage Accuracy Grade

| Use            | Standard ( $\pm 4\%$ ) |
|----------------|------------------------|
| Industrial Use | HA179L00P              |
| Commercial Use | HA179L00               |
|                | HA179L00U              |

## UPAK Product (HA179L00U) Mark Patterns

The mark patterns shown below are used. on UPAK products, as the package is small. Note that the product code and mark pattern are different.

The pattern is laser-printed.

Notes: 1. Boxes (1) to (5) in the figures show the position of the letters or numerals, and are not actually marked on the package.

2. (1) and (2) show the product-specific mark pattern. (see table 1)

**Table 1**

| Output Voltage(V) | Product No. | Mark Pattern(2 digit) |
|-------------------|-------------|-----------------------|
| -5                | HA179L05U   | 9B                    |
| -6                | HA179L06U   | 9D                    |
| -8                | HA179L08U   | 9E                    |
| -9                | HA179L09U   | 9F                    |
| -10               | HA179L10U   | 9G                    |
| -12               | HA179L12U   | 9H                    |
| -15               | HA179L15U   | 9J                    |

3. (3) shows the production year code (the last digit of the year).

4. (4) shows the production month code (see table 2).

**Table 2**

| Production Month | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
|------------------|---|---|---|---|---|---|---|---|---|----|----|----|
| Marked Code      | A | B | C | D | E | F | G | H | J | K  | L  | M  |

5. (5) shows the production week code.

## Absolute Maximum Ratings (Ta = 25°C)

| Item                          | Symbol     | HA179L00P,<br>HA179L00 Series | HA179L00U Series  | Unit |
|-------------------------------|------------|-------------------------------|-------------------|------|
| Input voltage                 | $V_{IN}$   | -35                           | -35               | V    |
| Max power dissipation         | $P_T^{*1}$ | 800 <sup>*2</sup>             | 800 <sup>*2</sup> | mW   |
| Operating ambient temperature | $T_{opr}$  | -20 to +85                    | -20 to +85        | °C   |
| Storage temperature           | $T_{stg}$  | -55 to +150                   | -55 to +150       | °C   |

Notes: 1.  $T_a \leq 25^\circ\text{C}$ , If  $T_a > 25^\circ\text{C}$ , derate by 6.4 mW/°C  
 2. 15 mm × 25 mm × 0.7 mm glass epoxy board,  $T_a \leq 25^\circ\text{C}$

## Characteristic Curves

Package Dimensions

Unit: mm

|                        |          |
|------------------------|----------|
| Hitachi Code           | UPAK     |
| JEDEC                  | —        |
| EIAJ                   | Conforms |
| Mass (reference value) | 0.050 g  |

Unit: mm

|                        |           |
|------------------------|-----------|
| Hitachi Code           | TO-92 Mod |
| JEDEC                  | —         |
| EIAJ                   | Conforms  |
| Mass (reference value) | 0.35 g    |

## Cautions

1. Hitachi neither warrants nor grants licenses of any rights of Hitachi's or any third party's patent, copyright, trademark, or other intellectual property rights for information contained in this document. Hitachi bears no responsibility for problems that may arise with third party's rights, including intellectual property rights, in connection with use of the information contained in this document.
2. Products and product specifications may be subject to change without notice. Confirm that you have received the latest product standards or specifications before final design, purchase or use.
3. Hitachi makes every attempt to ensure that its products are of high quality and reliability. However, contact Hitachi's sales office before using the product in an application that demands especially high quality and reliability or where its failure or malfunction may directly threaten human life or cause risk of bodily injury, such as aerospace, aeronautics, nuclear power, combustion control, transportation, traffic, safety equipment or medical equipment for life support.
4. Design your application so that the product is used within the ranges guaranteed by Hitachi particularly for maximum rating, operating supply voltage range, heat radiation characteristics, installation conditions and other characteristics. Hitachi bears no responsibility for failure or damage when used beyond the guaranteed ranges. Even within the guaranteed ranges, consider normally foreseeable failure rates or failure modes in semiconductor devices and employ systemic measures such as fail-safes, so that the equipment incorporating Hitachi product does not cause bodily injury, fire or other consequential damage due to operation of the Hitachi product.
5. This product is not designed to be radiation resistant.
6. No one is permitted to reproduce or duplicate, in any form, the whole or part of this document without written approval from Hitachi.
7. Contact Hitachi's sales office for any questions regarding this document or Hitachi semiconductor products.

## HITACHI

LittleDiode supplies new, hard to find or obsolete electronic components and semiconductors all over the world.

With over two million different components listed you are sure to find the part you need.

Feel free to visit us today at our online store:

[LittleDiode.com](http://LittleDiode.com)

Looking forward to providing you with the best possible service.
