

## 54ABT16244

### 16-Bit Buffer/Line Driver with TRI-STATE® Outputs

#### General Description

The 'ABT16244 contains sixteen non-inverting buffers with TRI-STATE outputs designed to be employed as a memory and address driver, clock driver, or bus oriented transmitter/receiver. The device is nibble controlled. Individual TRI-STATE control inputs can be shorted together for 8-bit or 16-bit operation.

#### Features

- Separate control logic for each nibble
- 16-bit version of the 'ABT244
- Outputs sink capability of 48 mA, source capability of 24 mA

- Guaranteed output skew
- Guaranteed multiple output switching specifications
- Output switching specified for both 50 pF and 250 pF loads
- Guaranteed simultaneous switching noise level and dynamic threshold performance
- Guaranteed latching protection
- High impedance glitch free bus loading during entire power up and power down cycle
- Non-destructive hot insertion capability
- Standard Microcircuit Drawing (SMD) 5962-9317402

**54ABT16244 16-Bit Buffer/Line Driver with TRI-STATE Outputs**

## Functional Description

The 'ABT16244 contains sixteen non-inverting buffers with TRI-STATE outputs. The device is nibble (4 bits) controlled with each nibble functioning identically, but independent of the other. The control pins can be shorted together to obtain full 16-bit operation.

### Truth Tables

| Inputs            |           | Outputs   |
|-------------------|-----------|-----------|
| $\overline{OE}_1$ | $I_0-I_3$ | $O_0-O_3$ |
| L                 | L         | L         |

## Absolute Maximum Ratings (Note 1)

|  |   |
|--|---|
| Storage Temperature  | -65°C to +150°C                           |
| Ambient Temperature under Bias   | -55°C to +125°C                           |
| Junction Temperature under Bias  |   |
| Ceramic  | -55°C to +175°C                           |
| V <sub>CC</sub> Pin Potential to Ground Pin  | -0.5V to +7.0V                            |
| Input Voltage (Note 2)   | -0.5V to +7.0V                            |
| Input Current (Note 2)   | -30 mA to +5.0 mA                         |
| Voltage Applied to Any Output in the Disabled or Power-off State in the HIGH State | -0.5V to 5.5V<br>-0.5V to V <sub>CC</sub> |
| Current Applied to Output in LOW State (Max)                                       | twice the rated I <sub>OL</sub> (mA)      |
| DC Latchup Source Current  | -500 mA                                   |

Over Voltage Latchup (I/O)

10V

## Recommended Operating Conditions

|                              |                 |
|------------------------------|-----------------|
| Free Air Ambient Temperature |                 |
| Military                     | -55°C to +125°C |
| Supply Voltage               |                 |
| Military                     | +4.5V to +5.5V  |
| Minimum Input Edge Rate      | (ΔV/Δt)         |
| Data Input                   | 50 mV/ns        |
| Enable Input                 | 20 mV/ns        |

**Note 1:** Absolute maximum ratings are values beyond which the device may be damaged or have its useful life impaired. Functional operation under these conditions is not implied.

**Note 2:** Either voltage limit or current limit is sufficient to protect inputs.

## DC Electrical Characteristics

**LIFE SUPPORT POLICY**

NATIONAL'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF THE PRESIDENT OF NATIONAL SEMICONDUCTOR CORPORATION. As used herein:

1. Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body, or (b) support or sustain life, and whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in a significant injury to the user.
2. A critical component in any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.

This file is the datasheet for the following electronic components:

54ABT16244W-QML - <http://www.ti.com/product/54abt16244w-qml?HQS=TI-null-null-dscatalog-df-pf-null-ww>

LittleDiode supplies new, hard to find or obsolete electronic components and semiconductors all over the world.

With over two million different components listed you are sure to find the part you need.

Feel free to visit us today at our online store:

[LittleDiode.com](http://LittleDiode.com)

Looking forward to providing you with the best possible service.
