

NPN Silicon Digital Transistor

- Switching circuit, inverter, interface circuit driver circuit
- Built in bias resistor ($R_1=47k\Omega$, $R_2=47k\Omega$)
- For 6-PIN packages: two (galvanic) internal isolated transistors with good matching in one package

**BCR148/F/L3
BCR148T/W**

**BCR148S/U
SEM2**

Type	Marking	Pin Configuration						Package
		1=B	2=E	3=C	-	-	-

We hereby disclaim any and all warranties, including but not limited to warranties of non-infringement, regarding circuits, descriptions and charts stated herein.

Information

For further information on technology, delivery terms and conditions and prices please contact your nearest Infineon Technologies Office (www.infineon.com).

Warnings

Due to technical requirements components may contain dangerous substances. For information on the types in question please contact your nearest Infineon Technologies Office.

Infineon Technologies Components may only be used in life-support devices or systems with the express written approval of Infineon Technologies, if a failure of such components can reasonably be expected to cause the failure of that life-support device or system, or to affect the safety or effectiveness of that device or system. Life support devices or systems are intended to be implanted in the human body, or to support and/or maintain and sustain and/or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.

LittleDiode supplies new, hard to find or obsolete electronic components and semiconductors all over the world.

With over two million different components listed you are sure to find the part you need.
